

Wicked Recordings is an independent underground record label founded in late 2008. Focused on releasing high quality house music in all its various forms, Wicked Recordings quickly found its place alongside the strongest house music labels in Scandinavia. Wicked Recordings has set its priorities firmly on creating a collective of like minded artists and focusing on them as a whole instead of only on their recorded music or quick profit. Wicked Recordings artist roster includes the likes of Sami Saari, Timo Juuti, Paul Easy, Marcus Almen with guest stars such as özcür Can, Mike Shiver and Heikki L.

Wicked Recordings was founded by Sami Saari and established as a sub-label to Captured Music managed by Mike Shiver. Later Sami Saari was joined by Timo Juuti to co-manage Wicked Recordings. In this day, Wicked Recordings staff include graphic and video designers as well as web professionals.
